

# PARLIAMENT OF KENYA

## THE SENATE

## THE HANSARD

Thursday, 3<sup>rd</sup> June, 2021

*The House met at the Senate Chamber,  
Parliament Buildings, at 2.30 p.m.*

*[The Speaker (Hon. Lusaka) in the Chair]*

### PRAYER

### PAPERS LAID

REPORTS ON FINANCIAL STATEMENTS OF  
VARIOUS COUNTY EXECUTIVES/ASSEMBLIES

REPORT ON MENTAL HEALTH (AMENDMENT) BILL  
(SENATE BILLS NO.28 OF 2020)

REPORT ON STALEMATE BETWEEN GoK  
AND USAID ON HIV/AIDS COMMODITIES

REPORT ON WILDLIFE CONSERVATION AND MANAGEMENT  
(AMENDMENT) BILL (SENATE BILLS NO. 30 OF 2020)

our indulgence. I wanted to summarise by saying that the issue of the children who disappeared, five of them who have never been found, must be addressed whether we pass this Motion or not.

We want to make sure that county governments become accountable because we are talking about orphans and children whose whereabouts are unknown. I believe this constitutes crimes against humanity irrespective of the number of children so long as we can approve a government policy to enforce forced displacement.

Thank you

**Sen. Olekina:** Thank you, Mr. Speaker, Sir. I rise to support the elevation of Nakuru town or municipality as a city. One of the things that excites me about this elevation into becoming a city is the fact that it is in Rift Valley.

Secondly, when you look at own source revenue collection, Nakuru county is number three in terms of own source revenue. Nakuru town collects more money than Eldoret, Mombasa and Kisumu who are the two counties that have cities. The amount of money collected by Kiambu, the next county, but I hope that soon---

*(Loud consultations)*

**The Speaker** (Hon. Lusaka): Let us consult in low tones.

**Sen. Olekina:** Thank you, Mr. Speaker, Sir, for your assistance and protection.

There are a few things that I want to point out here. Although I support the elevation of Nakuru Municipality to a city, it comes with great expectations. We expect more things to come out of that county where we hope that with more taxation expected to be charged to the people, there will be more public participation so that people will know what they are paying for.

Mr. Speaker, Sir, I have gone through the Report and one of the things that excites me is that fact that this Senate is the only House of Parliament that elevates municipalities into cities. I hope that when we do this during our time here, we will not only do Nakuru but Eldoret and hopefully Kiambu. I say this because of the revenue that comes in. As you know, one of the prerequisites is that the municipality must demonstrate the ability to collect more revenue to support itself.

When you look at the population of Nakuru, it is over 367,000 people and the required is only 250,000 people. That tells you that Nakuru Municipality has the potential to generate more revenue and create more employment for the people of that town.

I hope that the County Governor of Nakuru, Hon. Lee Kinyanjui, and other governors who will come in after him will use technology to generate more resources. There is no reason why the current Governor, Hon. Kinyanjui, should not go through the spatial plan of Nakuru Municipality and ensure that every business that operates in the town can pay taxes. Where certain businesses operate without paying taxes or license fees, when they have to renew their permits, business licenses or annual fees, they are all intertwined such that that revenue can be collected.

Mr. Speaker, Sir, for us in Rift Valley, this has been long time coming. I hope that other municipalities like Eldoret will follow suit because that will see us stop wasting our time going to Mombasa or Kisumu to carry out services, even for this Senate, but by just going to Nakuru. In fact, it is something that will excite most Members of Parliament and Members of the County Assemblies (MCAs) because their per diem will slightly go higher.

I hope that the county governor will devise new mechanisms to enhance their garbage collection system so that they can generate power, recycle it, sell and generate more revenue for the city.

Mr. Speaker, Sir, from the Report, I am aware that there was proof of a lot of public sensitisation on what is expected of any municipality that is going to be confirmed into becoming a city. However, I want to emphasise that the MCAs of Nakuru County must spend most of their time enlightening or educating their citizens that now that they are becoming a city, there is a lot that will come, some will not be good and you must be prepared to know how to deal with it.

It is true that when you look at Nairobi as a City, there is a lot of insecurity in certain parts. That will not leave Nakuru once it becomes a city. There will be a lot of more traffic and more money going to Nakuru.

Mr. Speaker, Sir, the planning of Nakuru has to be taken into consideration. I would request that instead of people going to benchmark all over, they can go to Rwanda and see how Kigali has been elevated into one of the best cities in the world; a very clean

city. I hope that with elevation of Nakuru Municipality into becoming a city, it will become much cleaner.

Mr. Speaker, Sir, I support this and I hope other counties will follow suit and before the end of this term, this Senate can elevate other municipalities like Kiambu into a city so that we can all enjoy the benefits of a city.

Thank you.

**Sen. Olekina:** Mr. Speaker, Sir, on a point of order.

**The Speaker** (Hon. Lusaka): What is your point of order, Sen. Olekina?

**Sen. Olekina:** Mr. Speaker, Sir, the Standing Order referred to by my colleague is quite clear. It has to be moved 30 minutes before unless you use Standing Order No. 1 so that we can proceed.

read a Third Time.

I request Sen. Olekina to second.

**Sen. Olekina:** Mr. Temporary Speaker, Sir, I second.

*(Question proposed)*
